Yale Smart Modules

Yale Smart Module: Yale Access, Z Wave Plus, Zigbee, Apple HomeKit

Yale Access Upgrade Kit (AYR202-CBA-KIT)

The Yale Access Upgrade Kit, available for $129, comes with a Yale Smart Module, Connect Wi-Fi Bridge and DoorSense. Lock and unlock, share access with others and see who comes and goes all using your Yale Access app, from anywhere! Your lock will unlock automatically as you approach the door with your smartphone, via Bluetooth, and it will lock automatically so you never have to worry about your home being unsecured. Your Assure Lock/Lever will respond to Siri, Amazon Alexa or Google Assistant voice commands giving you even more convenience! Learn more here.

Yale Z-Wave Plus Smart Module

Add the Yale Z-Wave Plus Smart Module, available for $49, to your Assure Lock/Lever so that you can integrate your lock with smart home systems including Samsung SmartThings, Wink, Ring Alarm, Qolsys, Alarm.com, Honeywell and more!

Features typically include*:
- Lock and unlock from anywhere using your smart home app
- Share virtual keys and/or manage unique entry codes for people you trust
- Receive notifications when your home is locked or unlocked
- Control your door with Amazon Alexa or Google Assistant
*Features may vary based on smart home partner. A smart home hub and app are required for Z-Wave Plus features to be enabled.

Yale Zigbee Smart Module
Are you an Xfinity Home customer? Or, do you have an Echo Plus or Echo Show at home? Then by upgrading your Yale Assure Lock/Lever with the Yale Zigbee Smart Module, you'll be able to control and monitor it right from your smart app or through Alexa! Just pop the Zigbee Smart Module into the back of your lock and follow your smart home app's steps for adding a new device.

Yale iM1 Smart Module (Apple HomeKit)
Attention iPhone users! By adding a Yale iM1 Smart Module to your Yale Assure Lock SL (YRD256), you can lock/unlock, share access with others and create automations for your smart home from anywhere* using the Apple Home app on your iOS device. You can even control your lock using Siri voice commands!
*To be able to control your lock, and other HomeKit devices, from outside of your home, you'll need an Apple TV 4th Gen or later, iPad or HomePod set up as a home hub.

Yale Access

Yale Assure Locks and Assure Levers are now available to work with the Yale Access app, from anywhere! The Yale Access Upgrade Kit (sold with locks or as an upgrade accessory) will allow you to lock/unlock, share access and see who comes and goes all from your Yale Access app.Yale Access Upgrade Kits come with a Connect Wi-Fi Bridge, so you'll be able to do it all from anywhere, no additional hubs needed. Plus you can control your lock with voice assistants including Amazon Alexa, Google Assistant and Siri!

With Yale Access your lock will automatically unlock as you approach, with your smartphone, via

Bluetooth. You don't even have to take your phone out of your pocket! No phone on you? No problem, you can always unlock the door by entering your entry code on the backlit keypad.

Yale Access locks seamlessly integrate with Airbnb and HomeAway to make vacation rental hosting a breeze. Hosts will be able to completely automate the check-in and check-out process and ensure their property is only being accessed by expected visitors.

Functions or Features

For your home. For the things you love. For you.

Compatible Yale Locks:

- **Yale Assure Lock SL (YRD256) –** The slimmest electronic lock on the market with an edge-to-edge touchscreen keypad. The lock is 100% key free meaning it's tamper proof and there's no keys to lose.
- **Yale Assure Lock Touchscreen (YRD226) –** For those that want physical keys for peace of mind, there's this keyed touchscreen deadbolt.
- **Yale Assure Lock Keypad (YRD216)** – Easy to use for the whole family and in any climate, this keyed deadbolt has acrylic keys that are backlit**.**
- **Yale Assure Lever (YRL256 and YRL236) -** For doors without a deadbolt (side entry doors, garage entry, basement, home office, etc.), the Assure Lever is a smart keypad lever lock that replaces your existing knob or lever hardware.

Yale Access App Features:

- **Control From Anywhere** – Yale Access Upgrade Kits come with the Connect Wi-Fi Bridge so you can lock and unlock from anywhere using your Yale Access app from anywhere.
- **Unlocks Automatically -** Forget fumbling with keys, the lock automatically unlocks as you approach with your smartphone, via Bluetooth. You can also set it to lock as you leave so you never have to worry about whether or not you locked the door.
- **Share Access** – Grant access to your home for the people you trust. Give permanent access, temporary access or set a unique access schedule.
- **24/7 History** – See who comes and goes with smartphone notifications and a 24/7 access history in the app.
- **Use Your Voice** – Works with the three leading voice assistants; Amazon Alexa, Google Assistant and Siri.
- **Works with Apple HomeKit -** For iPhone and iPad users, add your Yale Assure Lock / Lever to your Apple Home app for added HomeKit features.
- **Comes with DoorSense -** Know if your door is not only locked or unlocked by also

closed or opened.

- **Works with August Doorbells –** See who's at your door and unlock the door right from your Yale Access app.
- **Smarter Vacation Rental Hosting -** Seamlessly integrates with Airbnb and HomeAway so that hosts can completely automate the check-in and check-out process for guests.
